Summary of the barriers faced by eligible pupils
<p>1. A number of our disadvantaged children are vulnerable in terms of their social and emotional wellbeing, which also impacts on their engagement and readiness to learn. Some pupils struggle to make and maintain friendships; some need support to work effectively with others; some struggle emotionally as a result of external factors which can lead to reduction in concentration and readiness to learn; some pupils have low self esteem and fixed mindsets leading to low ambition. Education may be a low priority in the home, leading to lack of encouragement and development; behaviour regimes lack consistency in the home so that pupils behaviour can be erratic.</p>
<p>2. Speech and language skills and understanding of our disadvantaged children are often less well developed than for other children in school</p>
<p>3. Fine and Gross motor skills of some our disadvantaged children in KS1 are less well developed than for other children in school</p>
<p>4. A number of our disadvantaged children are working below age related expectations in Reading, Writing and Maths. Some pupils lack resilience required to persevere when learning tasks are difficult; some pupils do not receive support from home for various reasons, so that learning is not reinforced; some pupils have SEND and require individual support to make progress</p>
<p>5. A number of our disadvantaged children have not had experience of enriching and engaging opportunities outside of school. Children can present with poor uniform standards or poor standard of lunch provision; they may lack PE kit or suitable footwear for sport</p>

'Let's Talk' Speech and Language provision – Jane McKean.	Targeted children in KS1 are supported to develop all aspects of speech and language, which also supports social interaction- and therefore engagement in learning and improved self esteem	Invaluable support for the growing number of children with SpL delay. Children with PPG and others are well supported by this provision and making good progress. Talk Boost has supported KS1 pupils with PPG entitlement to build receptive and expressive language skills. This impacts on ability for children to take a more active part in their learning – because they can understand, ask and answer questions and take more responsibility for their learning.	This is a successful intervention that will continue into next year.	£750
Bespoke Speech and Language support - KS1 'Talk Boost' intervention	School based bespoke support which builds on intervention above  - Targeted children in KS1 are supported to develop all aspects of speech and language, which also supports social interaction- and therefore engagement in learning and improved self esteem			£1068
1:1 gym trail sessions to improve fine and gross motor skills to support co-ordination and handwriting	Targeted children in KS1 build gross and fine motor skills and co-ordination to support them to be ready for writing	This intervention was introduced part way through the year, having identified an emerging need.	This was very successful, meeting the criteria, but also giving the opportunity to develop positive relationships with key adult and supporting self esteem and confidence.	£316
